SUMMARY

Computer Engineering graduate with hands-on experience in backend development, applied AI projects, and full-stack product delivery. I have built and shipped real projects, including a multi-agent AI platform, an App Store application, freelance production websites, and research work accepted to IEEE SIU 2025. I am most comfortable working with Node.js, TypeScript, Python, SQL databases, Docker, and LLM-based systems. As a new graduate, I am looking for junior software engineering roles where I can contribute to real products, keep improving technically, and take ownership of the work I deliver.

SKILLS

Backend & APIs: Node.js, Express, TypeScript, FastAPI, REST APIs, PostgreSQL, MySQL, SQLite, Sequelize, JWT, bcrypt, WebSocket

AI & LLM Engineering: Multi-agent systems, RAG, pgvector, ChromaDB, OpenAI / Anthropic / Gemini / OpenRouter APIs, Model Context Protocol, PyTorch, MLX LoRA fine-tuning

Frontend & Mobile: React, Next.js, Astro, Tailwind CSS, Three.js / React Three Fiber, SwiftUI, Flutter, Dart, Capacitor, Firebase, App Store delivery

DevOps & Tools: Docker, GitHub Actions, Vercel, OCI self-hosting, pnpm monorepo, Git

Security & Reliability: JWT authentication, rate limiting, CORS, Helmet, approval gates

EXPERIENCE

AI Fellow - Yapay Zeka ve Teknoloji Akademisi Istanbul · Dec 2025 - Present

- Selected for the AI Fellowship program among 31,700 applicants; following a practical curriculum in generative AI, ML/DL fundamentals, and end-to-end project development.
- Participating in AI training and project work as part of a program run with Google Türkiye, Girişimcilik Vakfı, T3 Foundation, and the Ministry of Industry & Technology.

Software Engineer Intern - Exedra HRTech Istanbul · Jul 2025 - Aug 2025

- Contributed to web product features and tests in a production HRTech environment.
- Worked as part of an Agile software team and gained experience with code review, team communication, and product delivery.

Instructor / Mentor - T3 Foundation - Deneyap Technology Workshops Istanbul · 2024 - 2025

- Taught and mentored students in Deneyap technology workshops through practical software and technology exercises.

Freelance Software Developer - Freelance Istanbul · May 2024 - Jan 2025

- Delivered production websites for clients, including a trilingual corporate website for A2 Reklam.
- Took responsibility for implementation, delivery timeline, SEO-related structure, and client communication.

Researcher - TUBITAK 2209-A Istanbul · Jun 2023 - Jun 2024

- Worked on machine learning models for structural / concrete durability prediction using sensor data.
- Used XGBoost and Random Forest models; the research led to a paper accepted at IEEE SIU 2025.

PROJECTS

AKIS

akisflow.com

Built a live multi-agent AI platform that coordinates role-separated agents with human approval gates and reviewer loops. The project focuses on making AI-assisted development more controlled, verifiable, and safer to run. Worked on backend orchestration, approval flow design, automated tests, Docker-based deployment, build provenance, and LLM safety guardrails.

TypeScript · Node.js · React · PostgreSQL / pgvector · Docker · Multi-LLM APIs · MCP

UniSum

[App Store](#)

Built and shipped an iOS application to the App Store with a native SwiftUI client and a self-built Node.js / Express / MySQL backend. Implemented REST APIs, authentication, and basic hardening such as CORS, Helmet, and rate limiting.

SwiftUI · Node.js · Express · MySQL · JWT · bcrypt · REST

A2 Reklam

a2reklam.com

Delivered a production corporate website with Turkish, English, and Arabic pages. Worked on the Astro build, local SEO structure, analytics setup, and a hardened PHP endpoint.

Astro · Tailwind CSS · PHP · Schema.org · GTM / GA4

Also live on the App Store: [Hoppala: Zipla ve Tirman](#) (iOS) · [Snake Grow.io: Battle Arena](#) (iOS) · [Odak: Gorev & Pomodoro](#) (iOS / macOS) · [UsageMeter](#) (macOS)

PUBLICATIONS

Machine learning for structural / concrete durability prediction - IEEE SIU 2025

Research work using XGBoost and Random Forest models for durability prediction.

WRITING

Author of 3 Medium articles on AI agents - medium.com/@engomeryasironal

CERTIFICATIONS

- **Foundations of Project Management** - Google (Coursera), Jan 2026
- **Supervised Machine Learning: Regression and Classification** - DeepLearning.AI (Coursera), Nov 2025
- **Exploratory Data Analysis for Machine Learning** - Coursera, Aug 2023

EDUCATION

B.Sc. Computer Engineering (70% English-medium) - Fatih Sultan Mehmet Vakif University - Graduated June 2026

LANGUAGES

Turkish (Native) · English (B2)
